## LOOKING FOR

---

An opportunity as a Business Analyst or similar to contribute to a progressive and creative company

## DID THIS

---

August 2013 – June 2014

**Business Analyst** @ WiserTogether, Inc. – Washington, D.C. (worked remote)

- Create requirements documents based on information from the product owner
- Provide user experience (UX) feedback
- Assist with functional QA testing of the site in a daily capacity
- Managed the company's end user ticketing system

January 2013 – August 2013

**Courseware Programmer** @ Carley Corporation – Orlando, Florida

- Front end development of new courseware using template files and storyboards
- Bug fixes of courseware and templates
- Assist graphic artists with graphic creation for courseware
- HTML | CSS | Javascript

August 2011 – December 2012

**User Experience Designer/Developer / Business Analyst** @ The Iona Group – Morton, Illinois (worked remote)

- Worked with the client (State Farm) to define requirements for the system/site user experience
- Create a user experience design for the system/site based on user roles and functional requirements
- Develop Drupal theming code for the system/site as it relates to the created user experience, functional requirements, and GUI
- Work with Iona's graphic design team to develop the graphical user interface (GUI) for the system/site based on the designed user experience
- Assist with the testing of the developed Drupal code for theming and the user experience, including unit testing, system (functional) testing and user testing

October 2010 – August 2011

**Interactive Developer** @ Band Digital – Chicago, Illinois

- Front end / Flash development of new websites for high profile clients based off Photoshop comps
- Maintain current client sites
- XHTML | CSS | AS3 | XML | JavaScript / jQuery | Drupal theming

June 2010 – October 2010

**Web Developer** @ Ace Hardware – Oakbrook, Illinois

- Daily site maintenance and web content creation
- XHTML | CSS
